SHIVA SINGH

Software Developer | Backend Development | SQL & API Development

Delhi, India | +91 9910260553 | shivaaa1917@gmail.com | LinkedIn Profile | LeetCode Profile

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in **backend software development, SQL Server, Node.js, Express.js and REST APIs**. Currently working as a **Software Developer Intern** on live enterprise and healthcare SaaS products, developing database-driven backend services, authentication, role-based workflows and real-time communication. Built and contributed to an Asset Management System and a doctor-patient healthcare platform. **National Winner – Smart India Hackathon 2025.**

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Backend: Node.js, Express.js, Django, RESTful APIs, API Integration

Databases: Microsoft SQL Server (MSSQL), MySQL, Database Design, SQL Queries, Stored Procedures

Frontend: React, HTML5, CSS3

Development: JWT Authentication, Role-Based Access Control, WebSockets, JSON, CRUD, Debugging

Tools: Git, GitHub, Postman, VS Code

Core: DBMS, OOP, Data Structures & Algorithms, Operating Systems

PROFESSIONAL EXPERIENCE

Plus Distribution Private Limited | Gurgaon, India

Software Developer Intern | September 2026 – Present

- **Asset Management System:** Developed backend services for a live enterprise platform using **Node.js, Express.js and Microsoft SQL Server**, covering inventory, categories, allocations, maintenance and billing.
- Built **REST APIs**, database queries and business logic with role-based workflows for Admin, Manager and Employee users.
- **MD History SaaS Product:** Developed backend functionality for doctor-patient management, video consultations, real-time chat, lab-test workflows and related healthcare operations.
- Implemented backend support for **WebSocket-based real-time communication** and persistent chat messages across doctor, patient and administrative workflows.
- Worked on **AI log analysis integration**, API integration and database-driven features for live product requirements.

Airports Authority of India (AAI) | Delhi, India

Web Development Intern | July 2025 – August 2025

- Developed an Asset Management System for inventory tracking with authentication and role-based authorization.
- Built an automated ticketing module using **Python and Django** to support internal issue tracking and resolution workflows.

YBI Foundation | Remote

AI / Machine Learning Intern | July 2024 – August 2024

- Performed exploratory data analysis, preprocessing and statistical modeling using **Pandas, NumPy and Scikit-Learn**.
- Built and evaluated supervised machine-learning models for regression and classification tasks.

KEY PROJECTS

AI-Based Accreditation Predictor System — Smart India Hackathon Winning Project | 2025

- Led a **6-member team** to develop an AI-based accreditation prediction system for UGC/AICTE using Python, Scikit-Learn, JavaScript, MongoDB and REST APIs.
- Developed predictive models using historical institutional metrics and automated parts of the accreditation screening workflow.

Enterprise Asset & Service Management Portal | Python, Django, MySQL, JavaScript

- Developed a centralized asset-tracking application with authentication, role management and ticketing workflows.

EDUCATION

Jagannath University | B.Tech, Computer Science & Engineering | August 2022 – July 2026 | **CGPA: 8.5/10**

HONORS & CERTIFICATIONS

- **National Winner – Smart India Hackathon (SIH) 2025:** Led a 6-member team to build an AI accreditation system for UGC/AICTE.
- **Certified Innovation Ambassador:** Ministry of Education's Innovation Cell (MIC) & Institution's Innovation Council.
- **Programming Fundamentals using Python:** Infosys.
- **Fundamentals of Object-Oriented Programming:** IIT Roorkee.
